Another great opportunity to promote the benefits Silo Art have bought to regional communities. The transformation on Viterra's working grain silos at Kimba is something to be very proud of and we encourage everyone to vote for this epic beauty! A fabulous acknowledgement of all the South Australian Silo Art. Just a bit biased in loving Kimba's beautiful girl in the wheat field. The way the colours change with the time of day & under the night sky with the solar lighting is nothing short of magnificent
