

Nomination for **URBAN AWARD**

Bridging the Divide

Normanville, SA

Photo c/o Yankalilla Council

District Council of Yankalilla recently purchased a block of vacant land in the township of Normanville with a view of opening it up for public leisure and recreational activities. This area borders Main South Road and Bungala River. In recent times, the land across from the river was sold for housing but this had no direct effect on walking access to the township.

The Council designed and built a creative and accessible bridge crossing that would not only secure the much-needed access for walkers but also add a very appealing and aesthetic looking structure to enhance the community space. This has been emphatically embraced by the local community
