Subject: WAC Submission 12/12/11: Brownhill Keswick Creek - Draft Stormwater Management Plan
Attachments: BCA_Sustainable Water Use Briefing Paper Final_29Nov10.pdf; Brownhill Creek_Sustainable water use leaflet_26Jul10.pdf; WAC Submission_B-K Draft Stormwater Man Plan_12Dec11.pdf

The Water Action Coalition (WAC) is pleased to contribute a submission Brownhill Keswick Creek Draft Stormwater Management Plan and the following documents are attached:

- WAC Submission_B-K Draft Stormwater Man Plan_12Dec11.PDF
- BCA_Sustainable Water Use Briefing Paper Final_29Nov10.PDF
- Brownhill Creek_Sustainable water use leaflet_26Jul10

The Water Action Coalition (WAC) is a broadly based movement of community, environmental and social justice groups and individuals that formed in July 2009 in response to growing public concern and direction of water and environmental policy. Since that time WAC has held rallies, public forums and made numerous submissions at both a state and national level. Further information of these activities and supporting organisations can be found on the [Water Action Coalition](#) website.

WAC also requests that this submission be forward for the attention of Mayors and information of Chief Executive Officers of the Cities of Adelaide, Burnside, Mitcham, Unley and West Torrens as a matter of urgency. Please confirm once this is done.

Please do not hesitate to contact me should you require further information or if we can be of assistance to the community consultation.

Regards,

John Caldecott
